

Reg. No. IDST/CIR/117/2024-A

Date: - 22/5/2024

Office of the Principal

METHODS OF ASSESSMENT OF LEARNING OUTCOMES

1. The Institute has a specified time table to follow in which theory and practical classes are held for the undergraduate students as defined by DCI.
2. Lecture planning is carried out by all departments and schedule for three months in advance is submitted to the UG Incharge. The same is communicated to the students also.
3. This ensures that students are well prepared for the topic.
4. PDF of the lecture and videos are also uploaded in the LMS platform for students to review.
5. Class tests are held after completion of a topic.
6. In clinical training, students are posted in the clinical departments for stipulated time duration. End posting viva is conducted at the end of every posting to assess the clinical knowledge and understanding of the students.
7. Continuous internal assessment examinations are held on time along with the University Professional Examination at the end of every year for assessment of students.
