

Office of the Principal

Reforms implemented in evaluation/examination process

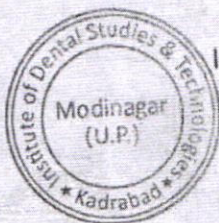

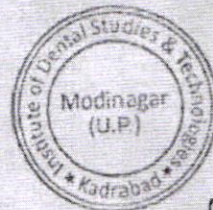

The institute introduced the following reforms in conduction of examination and evaluation system of students-

1. Periodic class tests are conducted on a routine basis.
2. Revision classes/Remedial tests are being conducted for the improvement in the performance of slow learners.
3. An objective internal assessment examination which is MCQ based have been introduced and every 2nd internal exam during each session is conducted on this basis.
4. A learning management system (LMS) is used by the institute for integrating IT processes. Routine objective and subjective assignments and assessments are posted on LMS portal for the students. Students are instructed to complete them within stipulated period of time. These are later evaluated by the faculty.
5. An end posting workplace based assessment is conducted after completion of each clinical posting which is comprised of both theory viva and patient case history recording/performing dental procedures.
